Mock-up for demonstration. E-Logic School of Business, its people and all figures are fictitious.

WELCOME

A message from the Dean

Dear students, parents and colleagues,

Welcome to the Bachelor of Business Administration at E-Logic School of Business. Over the next four years, our students will learn how organisations create value, how markets behave, how money moves through a business, and how people are led. More importantly, they will learn by **doing**: running simulated companies, consulting for real start-ups in Bengaluru, and presenting to industry juries.

This handbook is your reference for the 2026-27 academic year. It explains how the programme is structured, how each subject is taught and assessed, what we expect of students, and how parents can stay closely involved. Please keep it handy and reach out to your faculty mentor whenever you need help.

I look forward to meeting every one of you at the Parent-Teacher Meeting and across campus.

Prof. (Dr.) Meera Raghavan
Dean, E-Logic School of Business

About E-Logic School of Business

E-Logic School of Business is the management school of E-Logic University, Bengaluru, founded in 2009. The school offers the BBA, an MBA and doctoral programmes, and works closely with more than 140 partner companies for internships, live projects and placements. The BBA admits 40 students a year in two sections of 20, which keeps classes small enough for discussion-led teaching.

40	28	1 : 6	140+	94%
students per batch	faculty members	faculty-student ratio	partner companies	placed or in higher study, 2026

Vision and mission

Vision. To be India's most hands-on undergraduate business school, where every graduate has already solved a real business problem before they leave campus.

Mission. To combine rigorous business fundamentals with experiential learning, ethical leadership and digital fluency, in close partnership with industry, parents and the community.

PROGRAMME OVERVIEW

The BBA at a glance

The BBA is a full-time, four-year undergraduate degree organised in eight semesters. Years 1 and 2 build a broad foundation across management, economics, accounting, marketing, finance, people and analytics. In Year 3 every student chooses one **specialisation** and completes a summer internship and a capstone consulting project. Year 4 adds **advanced electives**, including ESG, compliance and CSR, on top of two core subjects each semester and a research thesis.

Item	Details
Degree	Bachelor of Business Administration (BBA), awarded by E-Logic University
Duration	4 years, 8 semesters (odd semester July-November, even semester January-April)
Total credits	176 credits (22 per semester)
Intake	40 students per year, two sections (A and B) of 20 each
Eligibility	Class XII (any stream) with at least 55% aggregate (50% for SC/ST), plus the E-LAT entrance test and interview
Specialisations	Marketing, Finance, Human Resources, Business Analytics (chosen at the end of Year 2)
Medium of instruction	English
Tuition fee	₹340,000 per year, payable in two instalments (by 15 July and 15 December)
Minimum attendance	75% in every subject to sit the end-term exam
Current batches (2026-27)	2023-27 batch in Semester 7; 2024-28 batch in Semester 5; 2025-29 batch in Semester 3; 2026-30 batch in Semester 1

How the four years build on each other

Year	Theme	What students do
Year 1	Foundations	Management, economics, accounting, mathematics, communication and digital tools; a sustainability project in Semester 1 and a community engagement project in Semester 2.
Year 2	Business functions	Marketing, finance, HR, law, operations and analytics; one open elective each semester; a business simulation; an 8-week summer internship after Semester 4.
Year 3	Specialise and apply	Strategy, ethics, international business and taxation; four subjects in the chosen specialisation; the Leadership Lab and the Capstone Consulting Project.
Year 4	Advance and research	Two core subjects each semester, including a two-part research project, and four advanced electives each semester, including ESG, compliance and CSR.

Who this handbook is for

- **Students**: what you will study, how you are assessed, and the rules you must follow.
- **Parents and guardians**: how to follow your ward's progress, attendance and fees, and whom to contact.
- **Faculty**: the shared framework for credits, sessions and evaluation across all subjects.
- **The Dean and academic leadership**: one reference for programme design, outcomes and policies.

PEDAGOGY

How we teach: learn it, try it, apply it

Every subject at E-Logic combines three modes. Roughly a third of class time is spent on concepts, a third on practice, and a third on applying ideas to real organisations. Classes are capped at 40 (20 for workshops), so every student speaks, presents and gets feedback.

Method	What it looks like in class	Used most in
Case method	Students read a business case before class and debate the decision a manager faced.	Strategy, Marketing, Finance
Flipped classroom	Short videos and readings at home; class time used for problems and discussion.	Economics, Statistics, Accounting
Workshops and studios	Hands-on sessions in small groups: role plays, design sprints, coding labs.	Communication, Design Thinking, Analytics
Business simulation	Teams run a simulated company over eight rounds and compete on profit and market share.	Business Simulation Workshop
Live projects	Briefs from partner companies, start-ups and NGOs, with a final presentation to the client.	Brand Management, Capstone
Industry masterclasses	Monthly sessions with CXOs and founders; at least 12 per year for each batch.	All years
Peer learning	Study circles of five, led by senior students, before mid-terms and end-terms.	Year 1 and 2 core subjects

Sessions and credits

One **session** is 75 minutes. Every subject, whatever its assessment, has **10 sessions per credit**. For faculty workload, each credit taught counts as **15 faculty credit hours** per section (teaching plus preparation and assessment), against a goal of 150 per faculty member per academic year.

Credits	Sessions	Minutes per session	Total minutes	Hours taught	Faculty credit hours
1	10	75	750	12.5	15
2	20	75	1,500	25	30
3	30	75	2,250	37.5	45
4	40	75	3,000	50	60

Mentoring

Every student is assigned a **faculty mentor** on admission, with about ten mentees each. Mentors meet each mentee at least once a month, review attendance and marks after every assessment, and are the first point of contact for parents. The mentor for each student is listed in the Student Master.

Digital learning. All course material, assignments and grades are on the E-Logic learning portal. Students receive a laptop-ready licence for Microsoft Excel, Python (Jupyter) and Power BI in Year 1.

PROGRAMME STRUCTURE

Credit framework

Students earn **22 credits every semester** and **176 credits** in total. Core subjects are compulsory for everyone. Electives come in three kinds: **open electives** in Semesters 3 and 4 (one chosen from three each semester), **specialisation electives** in Semesters 5 and 6 (all four subjects of the chosen track), and **advanced electives** in Semesters 7 and 8 (four chosen each semester).

Semester	Term	Core subjects	Elective choices	Credits earned	Sessions · hours taught
Semester 1	Odd	7	-	22	220 · 275 h
Semester 2	Even	7	-	22	220 · 275 h
Semester 3	Odd	6	1 open elective (2 credits) from 3	22	220 · 275 h
Semester 4	Even	6	1 open elective (2 credits) from 3	22	220 · 275 h
Semester 5	Odd	4	2 subjects (8 credits) of the chosen specialisation	22	220 · 275 h
Semester 6	Even	4	2 subjects (8 credits) of the chosen specialisation	22	220 · 275 h
Semester 7	Odd	2	4 advanced electives (16 credits) from 10	22	220 · 275 h
Semester 8	Even	2	4 advanced electives (16 credits) from 9	22	220 · 275 h
Total		38		**176**	**1,760 · 2,200 h**

Where the credits come from

Component	Credits	Share
Core subjects assessed by exam	81	46%
Core workshops and studios	19	11%
Core projects (including internship and capstone)	24	14%
Electives (open, specialisation and advanced)	52	30%
Total	**176**	**100%**

Choosing a specialisation

- Students rank the four tracks in March of Year 2 after an information session with each track lead.
- Seats per track are capped (Marketing 12, Finance 12, Human Resources 10, Business Analytics 12); ties are broken by CGPA at the end of Semester 3.
- A track runs only if at least 6 students choose it. Changes are allowed until the end of the first week of Semester 5.

SUBJECTS

Years 1 and 2

Subjects, credits, sessions, assessment type and the faculty member teaching each subject in 2026-27. Open electives are tagged OE I or OE II; students choose one per group. Specialisation codes: MKT Marketing, FIN Finance, HRM Human Resources, BAN Business Analytics.

Semester 1 · Year 1 · Odd (Jul-Nov 2026)

Code	Subject	Type	Credits	Sessions	Assessed	Faculty

BAN612	Business Intelligence with Power BI	Elective	4	40	Workshop	Prof. Karthik Subramanian

Specialisation tracks

Track	Track lead	Typical roles after graduation
Marketing	Dr. Priya Hegde	Brand associate, sales and key accounts, digital marketing executive
Finance	Dr. Arvind Kulkarni	Financial analyst, banking operations, wealth management, audit associate
Human Resources	Dr. Farah Siddiqui	HR generalist, talent acquisition, learning and development associate
Business Analytics	Prof. Karthik Subramanian	Business analyst, MIS executive, junior data analyst

SUBJECTS

Year 4: core subjects and advanced electives

Each Year 4 semester has **2 core subjects** (3 credits each) and **4 electives** (4 credits each), 22 credits in all. 10 electives are offered in Semester 7 and 9 in Semester 8: students take the two from their own specialisation and two more from the other tracks or the Sustainability & Governance electives on ESG, compliance and CSR, which are open to every track. Each elective has 20 seats.

Core subjects

Code	Core subject	Semester	Credits	Assessed	Faculty
BBA701	Advanced Strategy & Competitive Dynamics	7	3	Exam	Dr. Ritu Saxena
BBA702	Research Project I: Proposal & Literature Review	7	3	Project	Dr. Mohan Krishnamurthy
BBA801	Global Economy & Public Policy	8	3	Exam	Dr. Ritu Saxena
BBA802	Research Project II: Thesis & Defence	8	3	Project	Dr. Mohan Krishnamurthy

Master table of electives

Sem	Code	Elective	Track	Assessed	Advanced topics	Prerequisite
7	MKT711	Marketing Analytics & Customer Insight	Marketing	Exam	Customer lifetime value, attribution, segmentation models, marketing mix modelling	BBA403
7	MKT712	Global Brand Strategy	Marketing	Project	Brand architecture, cross-border positioning, global versus local campaigns	MKT512
7	FIN711	Derivatives & Risk Management	Finance	Exam	Futures, options and swaps, hedging, value at risk, credit risk	FIN511
7	FIN712	Mergers, Acquisitions & Restructuring	Finance	Project	Deal valuation, synergies, due diligence, restructuring and post-merger integration	FIN611
7	HRM711	Strategic HR & Organisation Design	HR	Workshop	Workforce strategy, organisation structures, job architecture, HR business partnering	HRM511
7	HRM712	Change Management & Culture	HR	Exam	Change models, resistance, culture diagnostics, leading a transformation	BBA201
7	BAN711	Deep Learning for Business	Analytics	Project	Neural networks, text and image models, model evaluation for business use	BAN611

8	HRM811	Global HR & Cross-Cultural Management	HR	Exam	Expatriate management, cross-cultural teams, global reward and compliance	HRM612
8	HRM812	People Analytics & Workforce Planning	HR	Workshop	Attrition models, workforce forecasting, pay equity analysis, people dashboards	HRM512
8	BAN811	Generative AI & Decision Automation	Analytics	Workshop	Large language models at work, prompt design, automation, AI risk and governance	BAN611
8	BAN812	Optimisation & Prescriptive Analytics	Analytics	Exam	Linear and integer programming, simulation, scheduling and network optimisation	BAN512
8	BBA8E1	Corporate Social Responsibility & Impact	Sustainability & Governance	Project	CSR law under the Companies Act, designing CSR projects, impact measurement, stakeholder reporting	BBA107

ASSESSMENT

How students are evaluated

Each subject is assessed in one of three ways, shown as **Assessment** in the curriculum. The weighting is fixed for each type, so students and parents always know what counts.

Assessment type	Internal (continuous)	External / final	Components
Exam	40%	60% end-term exam (3 hours)	Two quizzes (10%), assignment or case analysis (10%), mid-term exam (20%)
Workshop	100%	-	Studio or lab exercises (50%), participation and peer review (20%), final showcase (30%)
Project	50%	50% report + viva	Proposal (10%), milestone reviews (25%), mentor assessment (15%), final report and viva (50%)

Grading scale (10-point)

Marks	90-100	80-89	70-79	60-69	55-59	50-54	40-49	Below 40
Grade	O	A+	A	B+	B	C	P	F
Grade point	10	9	8	7	6	5	4	0

SGPA is the credit-weighted average of grade points in a semester; CGPA is the same across all semesters so far. A CGPA of 8.5 or above with no backlogs earns **First Class with Distinction**; 6.5 to 8.49 earns **First Class**.

Passing, attendance and re-examination

- To pass a subject, a student needs at least 40% overall **and** at least 35% in the end-term exam (Exam-type subjects).
- Minimum **75% attendance** in each subject is required to sit the end-term exam. Up to 10% can be condoned for documented medical reasons, with the Dean's approval.
- Students below 75% are flagged to their mentor and parents after the mid-term; below 65% they must repeat the subject.
- A student who fails can take a **supplementary exam** in June (Exam type) or resubmit within 30 days (Workshop and Project types). The grade is capped at B.
- Results are published on the learning portal within 21 days of the last exam. Re-evaluation requests cost ₹1,000 per subject and must be made within 7 days.

Academic integrity. Plagiarism above 15% (checked by software) in any submission, or any use of unauthorised AI tools in exams, leads to zero marks for that component. Repeat cases go to the Academic Integrity Committee, chaired by the Dean.

OUTCOMES

What our graduates can do

The BBA is built on six fixed **programme outcomes (POs)**, also called programme learning goals (PLGs). Each subject's Course Outline maps its course learning outcomes (CLOs) to these POs: the CLOs change from course to course, the POs do not. Progress is reviewed each year by the Programme Director and the Dean.

PO	Programme outcome
PO1	**Applied Knowledge.** Objective: To be able to apply concepts to real-world situations.
PO2	**Analytical Thinking.** Objective: To be able to critically assess situations by integrating learning from various domains.
PO3	**Decision Making.** Objective: To be able to arrive at a decision using suitable decision-making tools.
PO4	**Communication.** Objective: To demonstrate effective business communication skills.
PO5	**Ethics.** Objective: To demonstrate understanding of ethical considerations in a given context.
PO6	**Leadership.** Objective: Demonstrate ability to take leadership roles in business situations.

Programme-specific outcomes by specialisation

- **Marketing:** plan and measure a brand or sales campaign end to end.
- **Finance:** value a company and build an investment or financing recommendation.
- **Human Resources:** design a hiring, reward or training process that meets labour law.
- **Business Analytics:** build a dashboard or predictive model and explain it to managers.

Internships and placements

All students complete an **8-week summer internship** between Year 2 and Year 3 (17 May to 11 July 2027 for the current Year 2). The Internship & Placement Cell, led by Prof. Ankit Shah, runs a placement-readiness programme from Semester 7.

CALENDAR AND SUPPORT

Academic calendar 2026-27 and whom to contact

Date	Event
20 July 2026	Orientation for the 2026-30 batch (students and parents)
27 July 2026	Odd semester classes begin (Semesters 1, 3, 5 and 7)
14-19 September 2026	Mid-term exams, odd semester
10 October 2026	Parent-Teacher Meeting (PTM) 1, in person and online
6-11 November 2026	Deepavali break
14 November 2026	Last teaching day, odd semester
23 November - 5 December 2026	End-term exams, odd semester
7 December 2026 - 3 January 2027	Winter break
4 January 2027	Even semester classes begin (Semesters 2, 4, 6 and 8)
22-24 January 2027	E-Fest, the annual management and cultural festival
15-20 February 2027	Mid-term exams, even semester
13 March 2027	Parent-Teacher Meeting (PTM) 2
26 April - 8 May 2027	End-term exams, even semester
17 May - 11 July 2027	Summer internship (students finishing Year 2)
June 2027	Supplementary exams; convocation for the 2023-27 batch

For parents and guardians

- Attendance and marks are visible on the parent portal and are e-mailed after every mid-term and end-term.
- Parents are told within a week if attendance falls below 75% or fees are overdue.
- Two Parent-Teacher Meetings a year; mentors can also be met by appointment on any Saturday.
